

Twickenham Rowing Club

Environmental Policy

In order to maintain and sustain Twickenham Rowing Clubs environmental performance we will take every reasonable practicable means to:

- Comply with all relevant statutory environmental requirements
- Achieve good environmental standards in all activities including the reduction, controls, handling, use, storage and disposal of waste
- Make economic use of energy, water and all other resources to minimise waste in all aspects of the business
- Assess regularly the environmental impact resulting from operations and remain fully informed of recognised best practices
- Communicate this policy to members, contractors, suppliers and volunteers and encourage their active involvement
- Include environmental issues in training programmes to increase volunteers awareness and active involvement
- Set environmental objectives and targets for improvement, which will be regularly monitored and reviewed
- Maintain contingency plans where a foreseeable risk of environmental incidents exists
