

HANDIKNAPPS 2009

REVISED COURSES DURING BRIDGE WORKS

ALL SCULLERS MUST MEET IN THE BAR AT 09:15 FOR A SHORT BRIEFING ON THESE CHANGES AND TO CONFIRM STARTING ORDER

Due to refurbishment works on the structure of Richmond Bridge we will not be able to race through this bridge for several rounds.

Accordingly the courses have been revised as follows:-

CLASSIC COURSE

Start at the usual place and proceed up to Teddington and turn there as normal.

Proceed down to below the run of moored boats after Glover's Island and TURN into the Middlesex (club) station.

Proceed upstream between the Middx bank and Glover's – re-entering the navigation channel after Glover's when it is safe to do so (either immediately after Glover's or adjacent to Robinson Crusoe – after the moored barges) – BEWARE OF LARGE MOORING BUOYS

Continue upstream to Teddington where the turning post will also be the finish.

SHORT COURSE

Start at the usual place and proceed up to Teddington and turn there as normal.

Proceed down to below Eel Pie Island and TURN.

Proceed upstream between the Surrey bank and Eel Pie Island – keeping to the island side of the navigation channel

Continue upstream to Teddington where the turning post will also be the finish.

Thank You

Paul Davis
