

IMPORTANT INFO : HANDIKNAPPS 2009: ROUND 7

REVISED START ARRANGEMENTS

There are sufficient scullers regularly doing the Handiknapps that we can no longer wait for latecomers to get the start underway.

So, below is a revised start arrangement.

1. The Start Order will be published by the preceding Tuesday.
2. This can be amended for those who know they will not be coming, or those who wish to be added, up to Thursday preceding.
3. The Start List will be closed on Friday morning.
4. Crews are expected to know their place in the start order when they arrive on Sunday, and be equipped and boated from 0915.
5. I will be at the start from 09:30 to set off the crews in the printed order and with the printed intervals. There will be no reference to latecomers.

While the Bridge works are underway I have suspended the Short Course (as it is difficult to get from setting off the last sculler at Eel Pie to be at the finish at Teddington, in time to greet the first sculler!). The current start list has the short coursers in the main list.

Also while the Bridge works continue we shall run the Revised Course, being from the usual start, to turn at Teddington, to turn AROUND Glovers, to finish at Teddington.

Please make sure you know this and are up to speed on the navigation behind Glovers.

Thanks

Paul
