Ham House Slipway (2)

TwRC (4)

Shoals at low water (3)

Thames Young Mariners

Swan Island (Cut Wash & No Megaphones)

Boat Moorings

Teddington Lock

Course DOWN

Course UP

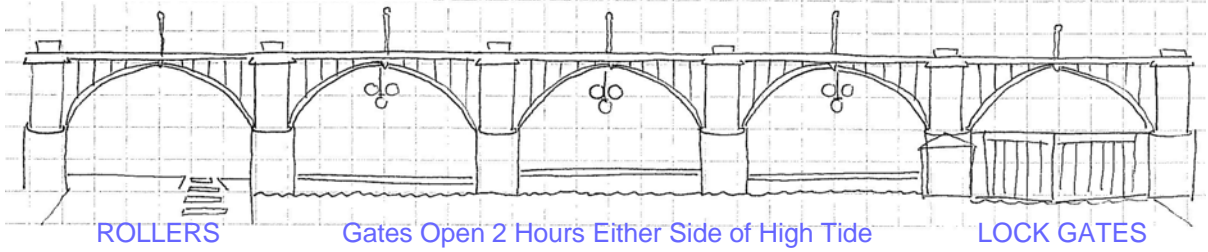

Beware Sailing Dinghies

**Important "Blackspots"**

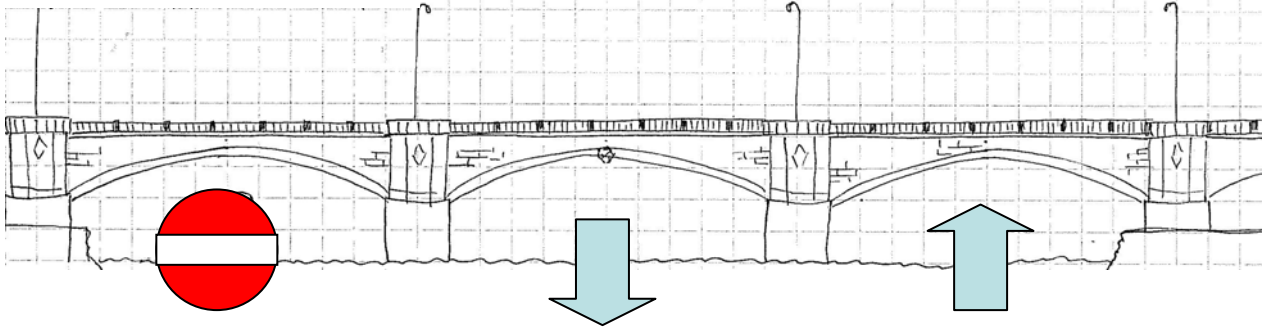

- 1: Corporation Island sits where an unwary crew might expect the correct course to be!!
2. At high water this slipway and ramp are covered – do not run over them!
3. At low water this area is too shallow for rowing craft and launches
4. Eel Pie Slipways sometimes have to stack large craft outside – significantly reducing the navigation channel. Do not go this side of Eel Pie Island unless you have to.
